

PRINTING HELP FOR SOLID WASTE & RECYCLING SCHEDULE

This PDF document uses the highlighting feature and the highlighted dates may not show up if you the print settings are not correct. In order for the highlighted dates to show, make sure the setting under “Comments & Forms” is set to “Document and Markups.” This will ensure that the highlighted dates on the schedule show up when the document is printed. Also make sure the orientation is on Landscape. See a sample of the correct settings below.
